Based on 12/1/2009 Babies Can't Wait Federal Table 2: "Settings where EI services provided to Infants and Toddlers"

This indicator is addressed more fully in the State Performance Plan (SPP) and the Annual Performance Report (APR)

The reason as to why any services cannot be provided in the natural setting have been justified in the child's IFSP

3a. Percent of infants and toddlers with IFSPs who demonstrate improved positive social - emotional skills (including social relationships)

District	e. Percent of children who maintained functioning at a level comparable to same-aged peers		d. Percent of children who improved functioning to reach a level comparable to same-aged peers		c. Percent of children who improved to a level nearer to same-aged peers but did not reach it		b. Percent of children who improved but not sufficient to move nearer to functioning comparable to same aged peers		a. Percent of children who did not improve functioning		7/1/08 - 6/30/09 State Target

* Based on Babies Can't Wait state database. All percentages have three components, which are numerator, denominator and quotient. In the above chart there are three equations (A,B,C). "On Time" is the numerator, "Total # Exiting Part C" is the denominator and "%" is the quotient. Either component may have any number of sub-components. In the above example "Total Exiting Part C" has two sub-components (Total Clients, Missing Transaction Date). On Time has one sub-component (Delayed Family Reasons) and one miscellaneous piece of data (Delayed Other Reasons).

This indicator is addressed more fully in the State Performance Plan (SPP) and the Annual Performance Report (APR)
